

Erwin Felix Lewy Bertaut Prize 2021*

Call for nominations

The **European Neutron Scattering Association (ENSA)** and the **European Crystallographic Association (ECA)** invite nominations for the **Erwin Felix Levy Bertaut Prize 2021**.

The Prize is awarded in recognition of notable experimental, methodological or theoretical contributions to the investigation of matter, using Crystallographic or Neutron Scattering methods.

Criteria

- Young scientist (up to 8 years after finishing the PhD thesis).
- To have a clear association with ENSA and/or ECA scientific communities.

Nominations

- Submitted by individual European scientists (self-nomination excluded) or on behalf of a group.
- Nominators may be members of ENSA, ECA or any of the national organizations represented by ENSA and ECA.
- The nominator must ensure a signed acceptance of the nomination by the nominee.

Nomination documents

- Letter of motivation for the award.
- Brief curriculum vitae of the nominee and a short list of major publications.
- Letters of support from authorities in the field are accepted.
- Nominations must be sent to ENSA Chair at the address: henrik.ronnow@epfl.ch.

Deadline

March 31st, 2022

Award Venue

International Conference on Neutron Scattering 2022 in Buenos Aires (ICNS 2022).

*This call for the Erwin Felix Levy Bertaut Prize 2021 which has been postponed to 2022 to coincide with ICNS 2022 which was likewise postponed. Please note that there is a parallel call for the 2022 prize in recognition for outstanding contributions in all fields of crystallography ([link here](#)). Nominations for the prize will be treated in confidence and, although they will be acknowledged, there will be no further communication.
