To keep up to date with news, events and opportunities from the European neutron and muon community, [subscribe to the LENS email newsletter](#).

You can [view previous newsletters](#) on the LENS website.

The League of advanced European Neutron Sources (LENS) is a non-profit consortium working to strengthen European neutron science and technology. Through the collaborative efforts of its members, LENS endeavours to enhance and promote neutron science as an indispensable research tool for academic and industry scientists working to address important scientific and societal challenges.
